Monthly Recap

NITDA

Mar 10th 2026

To mark International Women's Day, NITDA and Women in Cybersecurity (WiCyS) hosted the "Cyber for Women Training" in Abuja. Representing DG Kashifu Inuwa, Dr. Ayodele Bakare underscored that closing the gender gap is vital for Nigeria's digital resilience.

The initiative aims to equip women with essential cybersecurity skills, moving beyond inclusion to leverage diverse perspectives that strengthen national security and foster innovation in a rapidly evolving threat landscape.

Mar 13th 2026

At a recent Stakeholders' Dialogue in Abuja, NITDA emphasized the evolving role of teachers in Nigeria's digital-first education landscape. Representing DG Kashifu Inuwa, Dr. Aristotle Onumo highlighted that as digital access grows, educators must transition from traditional knowledge transmitters to "navigators of information" and "guardians of digital responsibility."

The dialogue centered on the urgent need to equip teachers with the capacity to guide students toward credible information while safeguarding them against harmful content. NITDA reaffirmed its commitment to this goal through the Digital Literacy for All (DL4All) initiative, aiming to weave digital ethics, critical thinking, and safety directly into the classroom experience.

NITDA

Mar 22nd 2026

At Moment 2026, NITDA reaffirmed its commitment to scaling Nigeria's creative sector through targeted digital infrastructure investments. Represented by Dr. Ayodeji Eniola, DG Kashifu Inuwa highlighted that by strengthening local cloud capacity and expanding broadband, the Agency is providing the necessary ecosystem for creators to produce, distribute, and monetize their content globally.

This support is central to NITDA's mission of driving innovation-led growth and ensuring the creative industry remains a cornerstone of the national economy.

Mar 24th 2026

NITDA's International Women's Day session urged women to prioritize self-care and excellence while balancing family and career. Representing the DG, Mrs. Olusanya Titilayo emphasized that mental and physical health are essential foundations for resilience in demanding, male-dominated professional environments.

The event focused on mentorship and supportive networks, empowering women to transform challenges into stepping stones. By fostering inclusivity and professional growth, NITDA reaffirms its commitment to a healthy, empowered workforce capable of driving Nigeria's digital future.

NITDA

Mar 27th 2026

NITDA has officially assumed control of the Nigeria Government Enterprise Architecture (NGEA), a milestone in the e-Government Masterplan 2.0. Developed with Korea's KOICA, the NGEA framework eliminates siloed digital initiatives, fostering interoperability across agencies like NIMC and Customs.

Hosted by Galaxy Backbone, this infrastructure ensures secure, citizen-centric governance. By aligning IT investments with national priorities, NITDA aims to reduce duplication and streamline public service delivery, ensuring organizational strategies translate into executable digital outcomes.

Mar 30th 2026

At Nigeria Satellite Week 2026, NITDA championed the synergy between government and startups as the "secret sauce" for innovation. Representing the DG, Dr. Aristotle Onumo highlighted space technology's role in boosting connectivity and national growth.

Through the Nigeria Startup Act and IdeaHatch, NITDA is turning local ideas into global solutions. This collaboration ensures that satellite technology drives a thriving tech ecosystem, fostering economic development and positioning Nigeria as a leader in the global space economy.

Monthly Recap

NITDA

Mar 31st 2026

NITDA hosted NIPPS (SEC 48) to discuss the Orange Economy's role in Nigeria's digital transformation. Highlighting creativity, film, and digital art, Dr. Aristotle Onumo identified these as key drivers of economic value through intellectual property.

Despite challenges like funding and infrastructure gaps, Nigeria's youthful population offers a massive advantage. By fostering collaboration between government, investors, and academia, NITDA aims to position the country as a global leader in cultural expression and sustainable economic growth.
